Template 1: Data Collection & Extraction

- **Project Title:** Electric Vehicle Market Performance & Insights
- **Dataset File Name:** `ev_market_data.csv`
- **Total Records & Attributes:** 30 Global EV Models across 12 attributes (6 Dimensions, 6 Measures) representing **3,000,000 total annual vehicle sales**.
- **Schema Breakdown:**
  - `Vehicle_ID` (String): Unique identifier (`EV01` to `EV30`)
  - `Model_Name` (String): Commercial EV model name
  - `Manufacturer` (String): 10 OEMs (`BYD`, `Tesla`, `Volkswagen`, `Hyundai`, `Ola Electric`, `Tata Motors`, `BMW`, `Volvo`, `Rivian`, `NIO`)
  - `Manufacturing_Country` (Geographic Country): 6 countries (`China`, `United States`, `Germany`, `India`, `South Korea`, `Sweden`)
  - `Vehicle_Category` (String): 6 segments (`SUV`, `Sedan`, `Hatchback`, `Two-Wheeler`, `Truck`, `Electric Bus`)
  - `Battery_Technology` (String): 5 chemistries (`LFP`, `NMC`, `NCA`, `Sodium-Ion`, `Solid-State`)
  - `Battery_Capacity_kWh` (Number): Energy capacity ranging from `3 kWh` (Two-Wheeler) to `540 kWh` (Heavy Truck)
  - `Driving_Range_km` (Number): Range per charge from `130 km` to `1,000 km` (Overall Avg: `467.8 km`)
  - `Charging_Speed_kW` (Number): Peak DC fast-charging power (`5 kW` to `350 kW`)
  - `Price_USD` (Currency): Retail price (`$1,300` to `$310,000`)
  - `Annual_Sales` (Number): Annual units sold (Total: `3,000,000` units)
  - `Customer_Rating` (Decimal): Customer satisfaction score on a 1–5 scale (Overall Avg: `4.54 / 5.0`)
