Template 5: Story Design

- **Story Name:** Data-Driven Transition to Sustainable Electric Mobility
- **4 Story Points Configured:**
    - **Point 1 (Executive Overview):** Full 3,000,000-unit global market snapshot across 10 manufacturers and 6 countries.
    - **Point 2 (Scenario 1 — Emily Johnson):** Demonstrates why SUVs (`41.83%` of sales) and high-range Sedans (`614.7 km` avg range, `4.70` rating) should anchor product portfolio expansion.
    - **Point 3 (Scenario 2 — David Chen):** Illustrates BYD (`26.17%`) and Tesla (`21.33%`) market share dominance alongside China (`29.50%`) and US (`24.67%`) manufacturing hubs.
    - **Point 4 (Scenario 3 — Dr. Sarah Williams):** Proves that Solid-State (`745.0 km` avg range, `4.83` rating) and LFP (`39.17%` market share) are key technological drivers overcoming range anxiety.
